COMPANY PROFILE

WHO WE ARE

01

TD COMPANY PROFILE — 2022 WHO WE ARE

TD is a boutique developer making its mark on Egypt's real estate market. We hold nearly 300 000 m2 of area across our three mixed-use projects.

Our shareholders have decades of industry experience. We capitalize on this deep knowledge and mastery as we step forward into the future of high-end lived experiences in New Cairo's Golden Square, the picturesque North Coast, and beyond.

As a new entry into the market, our fresh approach is what sets us apart. We are young but ambitious and forward thinking, with our finger on the pulse of emerging trends.

We are cut from the same cloth as our clients & appreciate the importance of feeling you belong within your space. Our clients are individuals and young families who have these same values, prefer privacy, and aspire to grow in the comfort and safety of a budding and tight-knit community.

To achieve our targets we have carefully selected where we invest and with whom we partner.

Choosing only premium locations to maximize both the prestige and convenience of our developments. This commitment extends to our consultants, who are internationally recognized for excellence in their fields.
